

Bear Lake, Oneida County, WI
Volunteer Angler's Journal
Field Data Form

As part of the Bear Lake District Lake Management Plan requirements; the Wisconsin DNR approved the use of an Angler's Journal to help augment fish data collected by professional agencies; and, has the advantage in that it comes from on-going angling activity. We are inviting all district members to participate in this data collection for calendar 2017.

Instructions: Please complete one form - per individual fishing session. Place in the mailbox located on the bulletin board at the boat landing; or, call John Primozych (715) 409-0105 to have your information recorded.
